PROJECTS

Slurp Boba Utah   *www.slurputah.com*
- Developing a responsive, user-friendly, and dynamic website for a local business
- Implementing front-end user interface with JavaScript, React, HTML, and CSS

PSA10   *www.github.com/XavioArts/psa10_app*
- Collaborated with four fellow students to build a web application that allows collectors to upload their collections digitally
- Conducted testing and debugging to ensure the application was functional and met the project requirements
- Implemented JavaScript, React, HTML, CSS, Ruby on Rails, Node.js, PostgreSQL, and Postman

EDUCATION

University of Utah & DevPoint Labs   Salt Lake City, UT
Full Stack Web Development   *Nov. 2021 - Feb. 2022*
- Completed a 13-week intensive full-stack web development bootcamp, focusing on JavaScript, React, HTML, CSS, Ruby, Node.js, and PostgreSQL
- Participated in weekly coding challenges, individual and group projects, and peer code reviews
- Collaborated with a team of five to develop a full-stack web application, created a successful pitch presentation, and demonstrated effective communication skills and teamwork, resulting in a first-place win at the bootcamp's hackathon

University of Utah, David Eccles School of Business   Salt Lake City, UT
Bachelor of Science, Information Systems   *Aug. 2017 - July 2020*
- Related Coursework: Data Structures & Java, Database Fundamentals, Networking and Servers, Web Based Application, Programming with Python, System Analysis & Design

SKILLS

- JavaScript (NodeJS, ReactJS)   • HTML/CSS
- Ruby (Ruby on Rails)   • Python
- SQL (MySQL, PostgreSQL)   • Testing (Postman, Jest)

WORK EXPERIENCE

Career Break   Salt Lake City, UT
Caregiving   *July 2022 - Feb. 2023*
